STATE BOARD OF MEDICAL EXAMINERS

IN THE MATTER OF THE SUSPENSION
OR REVOCATION OF THE LICENSE OF

CHANDRAVADAN SHAH, M.D.
License No. 25MA04906800

TO PRACTICE MEDICINE AND SURGERY
IN THE STATE OF NEW JERSEY

Administrative Action

CONSENT ORDER

This matter was opened to the New Jersey State Board of Medical Examiners (the "Board") upon notification that Newark Beth Israel Medical Center ("NBI") summarily suspended Respondent Chandravadan Shah, M.D.'s ("Respondent" or "Dr. Shah") medical staff privileges and then terminated his employment after the Medical Executive Committee determined that he had engaged in professional misconduct in directing a resident to write a new history note and causing the previous history note to be placed in a bin to be shredded.

As was revealed during NBI and the Board's investigations of this matter, on March 1, 2006, Respondent was on-call as a full-time attending physician in the Department of Obstetrics and Gynecology at NBI. After experiencing shoulder dystocia during a vaginal birth after cesarian delivery, Respondent told a resident, whom he was responsible for supervising, teaching, and mentoring, to use the term "failure to progress" in the patient's history rather than the term "cephalopelvic disproportion" that the resident already had recorded in the patient's medical record. Aware that the original history had been put in a special receptacle reserved for confidential records that are to be discarded, Respondent then countersigned the new history that the resident prepared that says "failure to progress" rather than "cephalopelvic disproportion."

On August 11, 2008, the Attorney General filed an Administrative Complaint with the Board based on the State's investigation of this matter, to which Respondent, through counsel, Steven I. Kern, Esq., filed an Amended Answer on October 27, 2008. The Attorney General on or about August 6, 2009 filed a motion for summary decision on the Administrative Complaint pursuant to N.J.A.C. 1:1-12.5.

Respondent, through Counsel, has notified the Board that he desires to resolve this matter without further formal proceedings. Respondent has admitted during sworn testimony that his conduct

violated medical staff regulations and Board regulations regarding the method by which a physician may change a medical record, which conduct subjects Respondent to discipline by the Board pursuant to N.J.S.A. 45:1-21(e) and (h) and N.J.A.C. 13:35-6.8(b)(2).

Respondent having agreed and given his voluntary consent to the within Order, the Board finding that the within disposition is adequately protective of the public health, safety and welfare, and other good cause having been shown,

IT IS on this 9th day of September, 2009

ORDERED AND AGREED THAT:

1. Respondent, Chandravadan Shah, M.D., hereby is reprimanded for his conduct in violation of Board statutes and regulations.
2. Respondent shall pay a civil penalty in the amount of \$5,000.00.
3. Respondent shall pay the Board's transcript costs in the amount of \$235.00 and the State's attorney's fees in the amount of \$10,958.50.
4. Respondent shall pay the civil penalty and costs ordered in paragraphs 2 and 3, supra, which amount to a total of \$16,193.50, within thirty (30) days of the entry of this Order by the Board. Payment shall be made by certified check or money order made payable to the State of New Jersey and shall be sent to the attention of the

Executive Director of the Board at P.O. Box 183, Trenton, New Jersey 08625-0183. The Board reserves the right to file a certificate of debt for the full amount of the civil penalty and/or costs outstanding when this Order is entered by the Board. Any failure of Respondent to make payment under the terms of this Order shall be considered a violation of this Order and shall constitute professional misconduct pursuant to N.J.S.A. 45:1-21(e), thereby subjecting Respondent to any and all remedies available to the Board pursuant to N.J.S.A. 45:1-21 and 22.

5. The Board acknowledges that Respondent successfully has completed two courses that have received Board approval in other disciplinary actions, namely, the Professional Renewal in Medicine through Ethics course and an intensive record keeping course.
6. Respondent shall comply with the attached "Directives Applicable to Any Medical Board Licensee Who Is Disciplined or Whose Surrender of Licensure Has Been Accepted," which Directives are incorporated herein by reference.

**DIRECTIVES APPLICABLE TO ANY MEDICAL BOARD LICENSEE
WHO IS DISCIPLINED OR WHOSE SURRENDER OF LICENSURE
HAS BEEN ACCEPTED**

APPROVED BY THE BOARD ON MAY 10, 2000

All licensees who are the subject of a disciplinary order of the Board are required to provide the information required on the addendum to these directives. The information provided will be maintained separately and will not be part of the public document filed with the Board. Failure to provide the information required may result in further disciplinary action for failing to cooperate with the Board, as required by N.J.A.C. 13:45C-1 et seq: Paragraphs 1 through 4 below shall apply when a license is suspended or revoked or permanently surrendered, with or without prejudice. Paragraph 5 applies to licensees who are the subject of an order which, while permitting continued practice, contains a probation or monitoring requirement.

1. Document Return and Agency Notification

The licensee shall promptly forward to the Board office at Post Office Box 183, 140 East Front Street, 2nd floor, Trenton, New Jersey 08625-0183, the original license, current biennial registration and, if applicable, the original CDS registration. In addition, if the licensee holds a Drug Enforcement Agency (DEA) registration, he or she shall promptly advise the DEA of the licensure action. (With respect to suspensions of a finite term, at the conclusion of the term, the licensee may contact the Board office for the return of the documents previously surrendered to the Board. In addition, at the conclusion of the term, the licensee should contact the DEA to advise of the resumption of practice and to ascertain the impact of that change upon his/her DEA registration.)

2. Practice Cessation

The licensee shall cease and desist from engaging in the practice of medicine in this State. This prohibition not only bars a licensee from rendering professional services, but also from providing an opinion as to professional practice or its application, or representing him/herself as being eligible to practice. (Although the licensee need not affirmatively advise patients or others of the revocation, suspension or surrender, the licensee must truthfully disclose his/her licensure status in response to inquiry.) The disciplined licensee is also prohibited from occupying, sharing or using office space in which another licensee provides health care services. The disciplined licensee may contract for, accept payment from another licensee for or rent at fair market value office premises and/or equipment. In no case may the disciplined licensee authorize, allow or condone the use of his/her provider number by any health care practice or any other licensee or health care provider. (In situations where the licensee has been suspended for less than one year, the licensee may accept payment from another professional who is using his/her office during the period that the licensee is suspended, for the payment of salaries for office staff employed at the time of the Board action.)

A licensee whose license has been revoked, suspended for one (1) year or more or permanently surrendered must remove signs and take affirmative action to stop advertisements by which his/her eligibility to practice is represented. The licensee must also take steps to remove his/her name from professional listings, telephone directories, professional stationery, or billings. If the licensee's name is utilized in a group practice title, it shall be deleted. Prescription pads bearing the licensee's name shall be destroyed. A destruction report form obtained from the Office of Drug Control (973-504-6558) must be filed. If no other licensee is providing services at the location, all medications must be removed and returned to the manufacturer, if possible, destroyed or safeguarded. (In situations where a license has been suspended for less than one year, prescription pads and medications need not be destroyed but must be secured in a locked place for safekeeping.)

3. Practice Income Prohibitions/Divestiture of Equity Interest in Professional Service Corporations and Limited Liability Companies

A licensee shall not charge, receive or share in any fee for professional services rendered by him/herself or others while barred from engaging in the professional practice. The licensee may be compensated for the reasonable value of services lawfully rendered and disbursements incurred on a patient's behalf prior to the effective date of the Board action.

A licensee who is a shareholder in a professional service corporation organized to engage in the professional practice, whose license is revoked, surrendered or suspended for a term of one (1) year or more shall be deemed to be disqualified from the practice within the meaning of the Professional Service Corporation Act. (N.J.S.A. 14A:17-11). A disqualified licensee shall divest him/herself of all financial interest in the professional service corporation pursuant to N.J.S.A. 14A:17-13(c). A licensee who is a member of a limited liability company organized pursuant to N.J.S.A. 42:1-44, shall divest him/herself of all financial interest. Such divestiture shall occur within 90 days following the the entry of the Order rendering the licensee disqualified to participate in the applicable form of ownership. Upon divestiture, a licensee shall forward to the Board a copy of documentation forwarded to the Secretary of State, Commercial Reporting Division, demonstrating that the interest has been terminated. If the licensee is the sole shareholder in a professional service corporation, the corporation must be dissolved within 90 days of the licensee's disqualification.

4. Medical Records

If, as a result of the Board's action, a practice is closed or transferred to another location, the licensee shall ensure that during the three (3) month period following the effective date of the disciplinary order, a message will be delivered to patients calling the former office premises, advising where records may be obtained. The message should inform patients of the names and telephone numbers of the licensee (or his/her attorney) assuming custody of the records. The same information shall also be disseminated by means of a notice to be published at least once per month for three (3) months in a newspaper of general circulation in the geographic vicinity in which the practice was conducted. At the end of the three month period, the licensee shall file with the Board the name and telephone number of the contact person who will have access to medical records of former patients. Any change in that individual or his/her telephone number shall be promptly reported to the Board. When a patient or his/her representative requests a copy of his/her medical record or asks that record be forwarded to another health care provider, the

licensee shall promptly provide the record without charge to the patient.

5. Probation/Monitoring Conditions

With respect to any licensee who is the subject of any Order imposing a probation or monitoring requirement or a stay of an active suspension, in whole or in part, which is conditioned upon compliance with a probation or monitoring requirement, the licensee shall fully cooperate with the Board and its designated representatives, including the Enforcement Bureau of the Division of Consumer Affairs, in ongoing monitoring of the licensee's status and practice. Such monitoring shall be at the expense of the disciplined practitioner.

(a) Monitoring of practice conditions may include, but is not limited to, inspection of the professional premises and equipment, and inspection and copying of patient records (confidentiality of patient identity shall be protected by the Board) to verify compliance with the Board Order and accepted standards of practice.

(b) Monitoring of status conditions for an impaired practitioner may include, but is not limited to, practitioner cooperation in providing releases permitting unrestricted access to records and other information to the extent permitted by law from any treatment facility, other treating practitioner, support group or other individual/facility involved in the education, treatment, monitoring or oversight of the practitioner, or maintained by a rehabilitation program for impaired practitioners. If bodily substance monitoring has been ordered, the practitioner shall fully cooperate by responding to a demand for breath, blood, urine or other sample in a timely manner and providing the designated sample.

ADDENDUM TO THE DIRECTIVES
